Experience

Banco de Reservas

Software Engineer – Administrative Applications

September 2024 - Present (1 year 9 months)

Santo Domingo, Distrito Nacional, Dominican Republic

Autónomo

Full-stack Developer

March 2022 - Present (4 years 3 months)

Dirección General de Migración

Software System Analyst

October 2023 - September 2024 (1 year)

Santo Domingo, Distrito Nacional, Dominican Republic

As a Software System Analyst, I have worked on several projects with different stacks, which have helped me become a better developer, expanded my knowledge, and guided me in learning new technologies. I am grateful for the opportunities my leaders have given me and the trust they have shown in me.

I have worked on projects involving Blazor Web Apps, .NET APIs, ASPX (Web Forms), and Next.js App.

CCS Holding Group
